# INVISIBLE GRILLS

**Get an unobstructed Open Panoramic View from your window, Balcony or outdoor.**

"Invisible Grills". are a modern technology replacement for our regularly used bulky and heavy MS Grills.

The invisible grills are made up of Marine-grade, 316 Stainless Steel, that may be of two to two and a half mm thickness, which are installed mostly Vertically or even horizontally, using Transparent Nylon casing, separated up to three inches to build a heavy-duty Grills structure.

Let us understand the concept of Invisible Grill in the form of Questions and Answer form.

## 1. What is Invisible Grills?

Invisible Grill is an innovative and latest grill system that replaces the existing grills which obstruct the views. It is made up of tensile wires of a few millimeters that are virtually invisible to human eyes when seen from a distance. Those wires are designed and installed in such a way that although they provide safety and security to your family, it doesn't obstruct the view of Gallery. So everyone can enjoy the look and feel of outside as if there is no grill. The outside view is perfect as if it is an open gallery.

Since these grills are not seen from a distance, they are called invisible Grills

## F.A.Q.
